CAREER OBJECTIVE

As a passionate Flutter developer dedicated to creating innovative solutions and solving complex problems, I am driven to build a fulfilling career as a software engineer. Committed to excellence, I am eager to leverage my strong coding skills and enthusiasm for learning to contribute to impactful software development. My objective is to continuously expand my knowledge base and develop cutting-edge technologies, making meaningful contributions in the dynamic field of software engineering.

WORK EXPERIENCE

Flutter developer

June 2023 – May 2024

Bringin Technologies Limited,
Dhaka, Bangladesh.

[Letter of Experience](#)

Responsibilities:

- Designed and developed highly scalable features using GetX state management and REST APIs.
- Optimized app performance through code refactoring and efficient use of Socket.io for real-time updates.
- Successfully implemented Agora SDK for in-app voice and video calling, enhancing user engagement.
- Collaborated effectively within an Agile development team, adhering to CI/CD practices.
- Maintained clean and well-documented code, ensuring maintainability and code quality.

App I maintained: Unbolt  

App I developed:

- Getfit  
- Getfit Professional
