CAREER OBJECTIVE

As a passionate Flutter developer dedicated to creating innovative solutions and solving complex problems, I am driven to build a fulfilling career as a software engineer. Committed to excellence, I am eager to leverage my strong coding skills and enthusiasm for learning to contribute to impactful software development. My objective is to continuously expand my knowledge base and develop cutting-edge technologies, making meaningful contributions in the dynamic field of software engineering.

WORK EXPERIENCE

Flutter developer

Bringin Technologies Limited,
Dhaka, Bangladesh.

June 2023 – Present

Visit: getfit.com.bd

Responsibilities:

- Designed and developed highly scalable features using GetX state management and REST APIs.
- Optimized app performance through code refactoring and efficient use of Socket.io for real-time updates.
- Successfully implemented Agora SDK for in-app voice and video calling, enhancing user engagement.
- Collaborated effectively within an Agile development team, adhering to CI/CD practices.
- Maintained clean and well-documented code, ensuring maintainability and code quality.

App I maintained: Unbolt  

App I developed:

- Getfit  
- Getfit Professional  

EDUCATION

Government Brajalal College, Khulna

Bachelor of Business Administration in Accounting

Daulatpur, Khulna

August 2021 – Present

Govt. Majid Memorial City College, Khulna

Higher Secondary School Certificate (HSC)

Khulna Sadar, Khulna

January 2018 – December 2020

SKILLS

Technical Skills: Mobile Application Development using **Flutter**.

PROJECTS

CraftyBay

Description: A sophisticated Flutter e-commerce application that utilizes a REST API and GetX for state management. Explore the project on [GitHub](#).

News Reader

Description: A user-friendly app designed to keep you updated with the latest news. It integrates API for fetching news, uses Riverpod for state management, and Hive for local storage. Check out the project on [GitHub](#).

ProgressPal

Description: A comprehensive Flutter task manager application that leverages REST API and GetX for efficient task handling. Discover more about this project on [GitHub](#).

SquareGhost

Description: A versatile Flutter CRUD application featuring Firebase Authentication and Realtime Database. This app utilizes Firebase Authentication for secure access and a Realtime Database for seamless data synchronization. View the project on [GitHub](#).

Real-Time Location Tracker

Description: This Real-Time Location Tracking App employs Google Maps and Flutter to provide accurate location tracking services. Visualize locations in real-time for enhanced awareness. Learn more about the project on [GitHub](#).

WEATHER!

Description: An intuitive application that allows users to check current weather conditions for various locations using a seamless interface. Find the project on [GitHub](#).

TODO

Description: A straightforward yet effective app designed to help users manage their tasks efficiently. Check out the project on [GitHub](#).

PROFESSIONAL TRAINING

Mobile Application Development with Flutter

Ostad - Flutter Batch 3 | [Certificate of Completion](#), [Certificate of Assessment](#).

Mentor: Md Rafat J. Meraz

Software Engineer,

Vivasoft Limited.
