CAREER OBJECTIVE

As a passionate software developer dedicated to creating innovative solutions and solving complex problems, I am driven to build a fulfilling career as a software engineer. Committed to excellence, I am eager to leverage my strong coding skills and enthusiasm for learning to contribute to impactful software development. My objective is to continuously expand my knowledge base and develop cutting-edge technologies, making meaningful contributions in the dynamic field of software engineering. Currently, I am learning NestJS to strengthen my skills as a full-stack engineer.

WORK EXPERIENCE

Software Engineer I   July 2024 – Present
Sheba Fintech Limited,   Visit: shebapay.xyz
Mohakhali DOHS, Dhaka, Bangladesh.
Responsibilities:

- Maintain and enhance the existing codebase, ensuring stability and performance
- Develop and integrate new features while upholding high code quality and clean, well-documented code.
- Collaborate with a dynamic tech team to ensure seamless project execution and effective teamwork.
- Utilize state management, focusing on optimization and scalability to improve app performance.
- Maintained clean and well-documented code, ensuring maintainability and code quality.

Jr Software Engineer (Flutter)   June 2023 – July 2024
Bringin Technologies Limited,   Visit: getfit.com.bd
Uttara, Dhaka, Bangladesh.
Responsibilities:

- Designed and engineered a highly scalable Flutter application leveraging GetX for state management and REST APIs.
- Optimized app performance through code refactoring and efficient use of Socket.io for real-time updates.
- Successfully implemented Agora SDK for in-app voice and video calling, enhancing user engagement.
- Collaborated effectively within an Agile development team, adhering to CI/CD practices.
- Maintained clean and well-documented code, ensuring maintainability and code quality.

Flutter developer   May 2022 – June 2023
Code Village,   Visit: codevillage.com.bd
Dhaka-1230, Bangladesh.
Responsibilities:

- Developed highly scalable flutter application using Provider state management and REST APIs.
- Worked collaboratively within an agile development team.
- Ensured code maintainability and quality by keeping the codebase clean and well-documented.

SKILLS

Technical Skills: Mobile Application Development using **Flutter,** Backend App using **NestJS**
Programming languages: Dart, Python JavaScript, TypeScript
Familiar with: OOP, GetX, Provider, Riverpod, RESTful APIs, Local Database, Firebase Services Integration, Clean Code, SOLID Principles, Version Control, Figma to Flutter, Socket.io, Agora SDK, Clean Architecture, Google Map APIs, Payment Gateway, PlayStore & AppStore app publishing.
Tools & IDEs: VSCode, Xcode, Android Studio, Git, GitHub, Postman, Swagger.
Project management tools: Notion, Trello, Jira.
Operating systems: Mac, Linux, Windows.

EDUCATION

Government Brajalal College, Khulna   Daulatpur, Khulna
Bachelor of Business Administration in Accounting   August 2021 – Present

Govt. Majid Memorial City College, Khulna   Khulna Sadar, Khulna
Higher Secondary School Certificate (HSC)   January 2018 – December 2020

PROJECTS

Filmr
Description: A simple Filmr that allows you to browse and explore movie details using the TMDB API. With a clean and user-friendly interface, Filmr offers a seamless movie browsing experience. View the project on GitHub.

AskGemini
Description: An interactive application utilizing the Gemini API to provide answers to user queries through chat or image inputs. It offers robust solutions for text-based questions and image descriptions, ensuring information is accessible and user-friendly. Check out the project on GitHub.

CraftyBay
Description: A sophisticated Flutter e-commerce application that utilizes a REST API and GetX for state management. Explore the project on GitHub.

PROFESSIONAL TRAINING

Mobile Application Development with Flutter
Ostad - Flutter Batch 3 | Certificate of Completion, Certificate of Assessment.
Mentor: Md Rafat J. Meraz
Software Engineer,
Vivasoft Limited.
